Dear Professor Taylor,

Ref: Fast-track application 99ART/5388

Title: A randomised trial of low and high dose aspirin for patients...

Thank-you for your applying for fast-track consideration of your paper.

I am pleased to confirm that we have accepted your paper for publication in *The Lancet*. We aim to publish the paper in the issue of June 26.

I have now passed your paper on to the fast-track manuscript editor, Rachel Ashton, who will edit and take your paper through to press. Rachel will try and get a proof to you on Thursday. Please be warned that house-style here at *The Lancet* is such that your paper may be quite heavily edited.

At the earliest opportunity today please e-mail either me or Rachel (r.ashton@elsevier.co.uk) a Contributors section (see examples attached), in which you state what part each named author played in preparation of the paper.

Yours sincerely,

Marie-Claire McMenemy
Senior editor
